#### E- Library facilities

The College has a well-stocked library with an attached computer lab for easy access to online information. The library has an extensive collection of books, journals, and rare books. It is equipped with KOHA software for online library management, which keeps a record of transactions. Students can remotely access Pearson and McGraw-Hill e-books, as well as e-books available on the LMS. The library collaborates with the libraries of Bharati Vidyapeeth's (Deemed to be University) College of Engineering, Dhankawadi, Pune, and Bharati Vidyapeeth's College of Engineering for Women, Pune. Students and faculty members can borrow books from these institutes. A dedicated committee oversees the requirements of books, usage of resources, and other library-related activities.

#### National Digital Library (NDL) subscription details

We the NDLI Club members very proud to announce that we have received the certificate the of registration, our institute Bharati Vidyapeeth's College of Engineering, Lavale, Pune is registered as a "NDLI Club" under the National Digital Library of India which is an initiative of MHRD aims to develop the pilot of a national Digital Library.

- Date of registration: 15/08/2020, (News published in many popular newspapers)
- Date of registration: 27/03/2021, (Registered Club Member: 382 )

#### NEP Implementation strategies

- Multidisciplinary curriculum (provide link )

As per the directives of the Government of Maharashtra, NEP 2020 will be implemented from the Academic Year 2024-25 in affiliated colleges.

- 1.a) Bharati Vidyapeeth's College of Engineering, Lavale, Pune, affiliated with Savitribai Phule Pune University since its inception in 2012, follows the structure and curriculum designed by the university. The university has incorporated a multidisciplinary approach in its curriculum design. The institute currently conducts short-term programs, seminars, and guest lectures to enhance education in multidisciplinary areas. These programs are offered alongside the regular university-prescribed courses. Students are encouraged to choose electives of their interest. Additionally, audit courses and honors courses are available, providing students with a wide range of options. These courses are effectively mentored to ensure comprehensive learning.
- 1.b) The integration of humanities and science with STEM is achieved through: i. Encouraging collaborative final-year projects with organizations like DRDO and the Indian Meteorological Department to address social and other issues. ii. Incorporating human values education via the National Service Scheme, the celebration of memorial days, tree plantation drives, village cleaning drives, etc. iii. Motivating students to undertake projects aimed at resolving grassroots issues and fostering innovation. iv. Encouraging faculty members to undertake courses on universal human

values, which in turn benefit students. To date, 10 faculty members have completed the AICTE-organized course on Universal Human Values (UHV).

- 1.c) The institute offers a flexible and innovative curriculum that includes credit-based courses such as environmental studies and project-based learning at various levels. These courses engage students in community-based, environment-related education, leading to holistic and multidisciplinary education.
- 1.d) The institute, affiliated with Savitribai Phule Pune University, does not have academic autonomy and thus cannot offer multiple entry and exit facilities. However, as per AICTE provisions, students who have completed a 3-year post-SSC diploma in Engineering may be admitted directly into the second year of the program.
- 1.e) As an undergraduate institute, the scope for research activities is limited. Nevertheless, students are encouraged to undertake projects addressing real-life challenges faced by society, industry, and government bodies. Upon identifying problem statements, they work towards finding solutions, fostering research aptitude and promoting lifelong learning.
- 1.f) In alignment with the directives of the Government of Maharashtra, NEP 2020 will be implemented from the academic year 2024-25 in affiliated institutes. The college has been preparing for NEP implementation, having already incorporated key aspects such as skill development, internships, and honors courses since 2019.
