Name of Activity: Community service: Disaster management E-services

- **Organizing Department** **:** Department of Computer Science and Engineering
- **Name of Activity** **:** Community service: Disaster management E- services
- **Date of Activity** **:** 3rd April 2019
- **Participants** **: 10** TY CSE Students

Community Service Project is an experiential learning strategy that integrates meaningful community service with instruction, participation, learning and community development Community Service Project involves students in community development and service activities and applies the experience to personal and academic development. Community Service Project is meant to link the community with the college for mutual benefit.

The specific objectives are

- To sensitize the students to the living conditions of the people who are around them
- To bring about an attitudinal change in the students and help them to develop societal consciousness, sensibility, responsibility and accountability
- To make students aware of their inner strength and help them to find new /out of box solutions to the social problems.
- To make students socially responsible citizens who are sensitive to the needs of the disadvantaged sections.

- **Outcome of Activity:** Students get knowledge of experiential learning experience through community services .
